DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE MEDIA DEPARTMENTAL OF THE ADVERTISING FEDERATION OF AMERICA

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all Departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publication.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*

SPRINGFIELD NUMERICAL DIRECTORY

EXPLANATORY NOTES

The streets are arranged alphabetically with their description, each description followed by a numerical arrangement of householders, places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)

The abbreviation r between the street number and the name signifies "rear."

The word "vacant" after a number signifies that the house, store or office at that number was vacant when the canvass was made.

*Denotes householders and places of business having telephones.

"(Right odd)" after street description indicates odd numbers on right side of street.

WHEN MEN WANT TO BUY

THEY look in the **Directory** to find **where** to buy. If you are in heavy type under the proper headings and **explain** clearly in this section of the book what **you** sell, **you** get the business.

CLASSIFIED DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to any firm or individual in business, classified according to their business or profession.

Information—as to Associations, Clubs and Societies, when and where they meet and the name and address of their secretary.

Information—as to Corporations and Chartered Companies, dates of their incorporation, their authorized capitalization and their officers.

Information—as to Churches, their location and pastor together with the pastor's address.

Information—as to where to obtain a list of prospects for your products or service.

Information—as to where to obtain any service that your community has to give.

Information—as to where to buy advantageously when competitive bids are required for any given service or product.

—Finally—

If your neighbor has it to sell, give him your business.

Like consideration from your neighbor adds prosperity to both.

The difference between

Reference and

←

Creative media

→

is their direction

↔

The seller's efforts to stimulate demand is well carried by outgoing, extensive, display media, but—

he should remember that initiative rests with the buyer, and when the hunt for the goods begins, creative media which may have built up the demand, are at a disadvantage.

It is the difference between coming and going.

The creative advertising is going after the prospect, to make him want to buy, but when you have him coming, reference media should be used to connect the demand with the local supply. Every effort should be made to direct the demand to the goods advertised, at the point where they may be seen.

It is here that reference media, directories, find their logical place in the cycle of the sale.
